

It is hard to believe that in this day and age, people can go on the radio and instruct and encourage listeners how to injure or kill a person, and laugh about it. The DJ's at G105 encouraged people to run cyclists off the road and throw objects at them. I have had this experience (unfortunately) and it is very unpleasant. We have had people come to our store and relate stories about being harassed by motorists. Many of these incidents include children. I hope that there are some type of sanctions that can be brought against the station (G105 in Raleigh) and the owners (Clear Channel Communications), especially since this is the third Clear Channel station to incite this type of incident. Thank you.
